Subject: Invitation for a meeting in Houston and on the area next To San Jacinto Bridge at I-10
Date: Tuesday, October 22, 2013 8:14:00 AM

Mr. Helfers,

I will not be attending the November meeting; however, I would appreciate the opportunity to call in on a conference phone line if that is possible. Please let me know if that can be arranged.

Regards,

Gary Miller
EPA Remedial Project Manager

Dear Sirs,

As spoken in the last month Linde is strongly interested to get access to the area at San Jacinto River near I-10 and to handle our heavy lift movements over that area.

To present feasible concepts to improve the road for these movements crossing the existing siphon, Linde will invite you for a mutual meeting in Houston. We would like to meet you and your responsible engineers to find a proper solution. Our proposals for that meeting will be either
Thursday, November, 21
or Friday, November 22

Exact time and location will be mentioned in due time.

We kindly ask you to nominate your participants so that we are able to arrange a feasible meeting room and possibilities to carry all participants to the area for a local inspection.

Further we will also invite our partner for the heavy lift movements which will be nominated in November.

As a part of a certain preparation for the local inspection, we kindly ask for an accompanied access to the area two weeks in advance of the meeting. We want to have an electromagnetic survey to verify the facilities in 2 to 3 m under the surface. The evaluation of the survey will take around one week. We want to be sure to have the results for the meeting available.

We are looking forward for a successful meeting and your cooperation to have a smooth heavy lift handling for our project.

Best regards

Jochen Helfers
